12	Make it a well planned multi-use development which compliments the town as it is today.	10/11/2024 3:47 PM
13	Extend 1st St traffic to Caledonia with public walkways landscaping and benches	10/10/2024 10:12 PM
14	I would love to see it become a vibrant waterfront destination for education, the arts and shopping.	10/10/2024 9:37 PM
15	The Moore Clark property is located in a prime area with a large space that could be so many things! It's exciting to think about what can come.	10/10/2024 3:21 PM
16	The existing structures need to be raised unfortunately. The resulting property should be zoned with a mixture of medium density residential and light commercial. Access to the waterfront can be used for marine use, both transient moorage for larger boats and kayak launch areas. In all cases the dike elevation needs to be increased to prevent the flooding that occurred in 2022.	10/10/2024 3:07 PM
17	Inclusion of affordable housing, as well as a Program Director position for Maple Hall (to schedule and manage events).	10/10/2024 3:05 PM

29	Its use! The building and lot could really be something special for locals.	10/4/2024 10:16 AM
30	I'm not someone who demands everything look shiny and perfect, but I would like the place to be more aesthetically pleasing. That could be accomplished by simply having the property be more functional again so that the fences can come down.	10/3/2024 8:24 PM
31	public access to extend historic character of space, add services, gathering spaces and art/music	10/3/2024 4:10 PM
32	The usability of that space for residents and tourists	10/2/2024 10:18 PM
33	Better kids playground. Better parking. Mixed use buildings. Commercial space on bottom condos on higher floors.	10/2/2024 7:00 PM
34	Everything. It's an eyesore and completely unusable as is.	10/2/2024 4:54 PM
35	like the La Conner Weekly news article from 2015: "Triton's vision is to enhance La Conner's artist community by having work space and apartments for artists in the upstairs portion of Big Blue and a weekend indoor farmers market and art gallery below. Big doors on the waterfront end of the building could be swung open in warm weather."	9/30/2024 6:54 PM
36	Enliven a dead space.	9/30/2024 5:45 PM
37	Make it safer, turn it into a community place.	9/30/2024 12:32 PM
38	Reinforcing flood protection and extending the boardwalk all the way to the park.	9/30/2024 9:59 AM
39	Create fun multi generational multicultural destination through mixed use development. Increase pedestrian and bike friendly infrastructure	9/29/2024 8:01 PM
40	The look, horrible look to have a rotten building right at the end of your downtown	9/29/2024 6:52 PM
41	Enhancement to the natural marine environment in which it exists, extending the "boardwalk" and restoring an artists' community living and working in La Conner once again.	9/29/2024 10:03 AM
42	1. Demolish it before a disaster happens. 2. Fire Danger! 3. What are you waiting for?	9/27/2024 12:53 PM
43	Unsightly blight and lack of use	9/27/2024 9:35 AM
44	Use it, energy, music, food, wine. Make it beautiful when boats come around the whole in the wall and see the bridge.	9/27/2024 8:37 AM
45	That it can be a vibrant part of Town rather than a hazardous eyesore.	9/26/2024 9:04 PM
46	Historic preservation if possible, retail, restaurant, hotel-is this what Laconner Associates was going to do? What happened?	9/26/2024 8:59 PM
47	Incorporating it with the main downtown area	9/26/2024 8:23 PM
48	Affordable housing and a bakery	9/26/2024 7:14 PM
49	Remove the ancient buildings and do something that "fits" with the community. Housing and open space and the keys. No office, very limited retail, perhaps a small cafe/restaurant. The key with this project is to keep it simple, be compatible to the existing complexion of the Town. At the end of the day housing is the most likely financeable and will drive and will help pay for compatible community improvements like a Plaza.	9/26/2024 6:36 PM
50	Don't try and save anything...new design standards for the entire area. Raise the ground level 4 feet.	9/26/2024 2:26 PM
51	While historic, it has become an eyesore and could be developed into such a usable space.	9/26/2024 9:56 AM
52	Develop the property as proposed 25 years ago with mixed use retaining historic features.	9/26/2024 9:51 AM
53	I would love to see that property turned into a space that includes retail and open spaces for people to gather, and that continues the same historic feel as downtown.	9/26/2024 9:36 AM
54	Any enhancement that fits in the neighboring properties and an extension of downtown would be an improvement. Outdoor space for families to enjoy the waterfront. Adequate parking would be essential.	9/26/2024 9:13 AM

56	I'm THRILLED THIS IS moving forward! LaConner NEEDS this shot in the arm to evolve us out of a stagnant, sleepy community where shops close early to a dynamic, progressive community that attracts more residents and tourists and shops stay open the posted length of their business hours.	9/25/2024 6:08 PM

62	The addition of more affordable housing in La Conner.	9/24/2024 8:53 AM
63	Replace the derelict buildings with productive, safe spaces	9/23/2024 2:47 PM
64	Make it a safe place with amenities not already available in downtown La Conner	9/23/2024 1:01 PM
65	the way it looks and make it usable , its currently an eyesore	9/23/2024 12:33 PM
66	...for what purpose	9/23/2024 9:16 AM
67	It needs to be clean and safe for everyone	9/21/2024 3:32 PM
68	Continue the boardwalk or path along the waterfront. Preserve the historic warehouse on the waterfront. Community focused integration and development. Walkability with strong links to the historic commercial core. Multi-family/mixed use infill, but in design needs to be sensitive to the historic nature of La Conner and needs to incorporate subterranean or semi subterranean parking so that the whole site doesn't just become one big parking lot.	9/21/2024 3:17 PM
69	Functionality.	9/21/2024 12:22 PM
70	Safety, eyesore, make it into a useless site.	9/21/2024 12:04 PM

72	It's an eye sore, clean it up. Provide parking for shoppers.	9/19/2024 9:50 AM
73	Dire need for workforce housing. Connect the downtown waterfront boardwalk all the way to the public boat launch and Pioneer Park.	9/18/2024 6:31 PM
74	It is to be a community space that gets celebrated and used	9/17/2024 11:40 AM
75	Its accessibility.	9/14/2024 9:16 PM
76	Clean up and create maybe a recreational area for families and their pets.	9/14/2024 11:15 AM
77	Safety. I am surprised that the wooden structure has survived the strong winds that have come through. Also, the potential for people to take up residence inside the building and the building catching fire has bothered me. It is an eyesore. I've heard tourists comment on how the town allows such a thing to exist.	9/13/2024 4:49 PM

1	There will be significant neighborhood disruptions, hopefully in a timely and orderly manner.	11/12/2024 9:38 AM
2	a park like setting, along the waterfront which showcases its unique history, the channel, art and culture.	11/11/2024 9:33 PM
3	Create post-parade gathering space, a small festival grounds	10/27/2024 9:55 PM
4	Include housing	10/24/2024 2:10 PM
5	Make it more of a walking and outdoor space for community rather than more building, cars and houses.	10/20/2024 12:22 PM
6	As much pedestrian space as possible	10/13/2024 6:33 PM
7	Mixed use with account housing, shops, and parking.	10/13/2024 12:03 PM
8	It makes sense to consider what grant funding sources might be available with development as an added incentive to the owner/developer. Mixed use whereby all demographic groups in the community would have a reason to interact in the space is appealing. Continuity with the rest of first street will likely facilitate visitors and tourists to explore this area. A focus on culture and education is a welcomed consideration. Thanks for all the community engagement opportunities with this work !	10/12/2024 8:20 AM
9	Try to make codes and regulations amenable to a variety of uses. Approach all proposals with an open mind.	10/11/2024 3:47 PM
10	if at all feasible I would like to see the large wooden structure become a performance/theater/concert space and attract artists and audience the same way that the Lincoln Theater or the Mt. Baker Theater. Do.	10/11/2024 11:19 AM
11	Look to the architecture and landscaping of the Anacortes waterfront as well as the open public spaces	10/10/2024 10:12 PM
12	The idea of adding docks for kayak rentals/launching as well as short term transient docking would be intriguing. Not sure there is enough space for a float plane launch area.	10/10/2024 3:21 PM
13	This property should be zoned residential.	10/10/2024 3:07 PM
14	Inclusion of affordable housing, space for farmer's markets or other outdoor event space, use of solar energy, installation of flood gates (like in Mount Vernon), maintain look and feel of downtown La Conner.	10/10/2024 3:05 PM
15	I think a very high use for it could be as an amphitheater, or an outdoor arena that could be versatile for sports or concerts. It could even be our new ballpark, since we lost the old one in a really bad plan that now has choked Maple Avenue and made it very dangerous for pedestrians and horrible for the people who live there.	10/7/2024 8:04 PM
16	whatever it is, make it financially feasible/accessible for regular people - not just the old and wealthy ffs	10/7/2024 3:48 PM
17	Extend the boardwalk to Caledonia. This is a walking neighborhood. Access from First Street has been blocked by fencing. Gathering spaces in old down traditional buildings	10/5/2024 11:05 PM
18	housing, condos with retail shop on bottom	10/5/2024 8:31 PM
19	Just keep including everyone in the process.	10/5/2024 6:34 PM
20	Parking	10/4/2024 8:28 PM

Moore Clark Subarea Plan Survey

21	Did I say parking?	10/4/2024 8:01 PM
22	Expand the shopping area Expand parking	10/4/2024 7:25 PM
23	I'd implore the powers-that-be to develop the area with the residents of La Conner's best interest in mind. The reason I moved to La Conner was its quiet, small town charm	10/4/2024 10:16 AM
24	One recommendation I have is to drop the idea of making Commercial Street in front of Maple Hall pedestrian only. That is just not really practical in my opinion. It would greatly affect the ability for differently abled people to access the building, and would also affect the load/unload capabilities of people who rent the facility. I know that renovations could be made to have disabled access and load/unload be offered on the West, East and South Sides of Maple Hall, but that would take funds that would be better used for other parts of the Moore-Clark subarea. It would also affect the availability of Maple Hall. My only other recommendations are: 1: as I mentioned above a fenced, grassy area for people to take their pets. 2. A moderately sized sign outlining the history of the property, specifically with pictures and a history of the Moore-Clark building. Have pictures that show how big the building was, especially in comparison to the rest of smaller La Conner. 3. A moderate number benches for people to simply enjoy views of the Swinomish Channel.	10/3/2024 8:24 PM
25	corral parking on edges od site. Focus on waterfront access and trails/boardwalk. Provide both market-rate and low-income housing in subarea.	10/3/2024 4:10 PM
26	Extend the boardwalk/walking path to pioneer park	10/2/2024 10:18 PM
27	Need parking and pedestain freindly space. It can be the gate way to our town.	10/2/2024 7:00 PM
28	Do not implement subsidized housing. We should attract patrons who can increase revenue to all businesses in town. Waterfront property is high end.	10/2/2024 4:54 PM
29	see above, i guess.	9/30/2024 6:54 PM
30	I was encouraged to hear that the old growth beams would be salvaged. The roofing should be saved as well. Rusted galv. roofing is used as an architectural feature all over town. Perhaps these materials could be used in future structures on site.	9/30/2024 5:45 PM
31	Incorporate Swinomish Tribe, incorporate local history	9/30/2024 12:32 PM
32	Affordable Housing	9/30/2024 10:23 AM
33	Please keep in mind the existing Fourth street residents in terms of development hight, downward lighting, Moore Clark parking doesn't impact increased traffic flow on Douglas and North Fourth street.	9/30/2024 9:59 AM
34	Just think ahead. If this is going to be a continuation of La Conners incredible downtown strip then make sure it compliments it and adds to it.	9/29/2024 6:52 PM
35	Please put the existing residential neighborhoods first. Impacts should make life safer and more beautiful. Significant chance has already been made to traffic flow by making first street one <u>way</u> WITHOUT mitigating feathers on Caledonia being put into place. No freshly painted cross walks, no designated bike lanes, no speed control on the "cutoff" route of the South Fourth Street hill.	9/29/2024 10:03 AM
36	Indoor/ Outdoor entertainment venue.	9/27/2024 12:53 PM
37	Build condos!! Both low income and market value. We need housing	9/27/2024 9:35 AM
38	I do, I would love a open discussion about it. See you monday!	9/27/2024 8:37 AM
39	Please keep the focus on design to benefit residents over attracting tourists. To include housing, basic services such as a drug store and improved public transportation	9/26/2024 9:04 PM
40	Extending 2nd would allow more ground floor business, with residential above, on the east side.	9/26/2024 8:59 PM
41	Native plants in all areas where landscaping is hapening	9/26/2024 8:23 PM
42	Enter into a development agreement with the current owners and move forward with a "professional market study" which should include the Port's planned development property to the north. Housing will be a key component as well as public open space. Engage the Port as a Partner. Consider what is "financeable"!	9/26/2024 6:36 PM

Moore Clark Subarea Plan Survey

43	City shouldn't be micromanaging the businesses that go in this space...let's just see what shows up	9/26/2024 2:26 PM
44	A private/public partnership between the town and a developer would likely help to realize the dream of redevelopment. If done correctly the area could incorporate street level retail with residential space above, while also providing additional parking for residents and visitors.	9/26/2024 9:56 AM
45	Develop the property as proposed 25 years ago with mixed use retaining historic features. I am disappointed with the town's loss of substantial tax revenue over these years due to resistance of investing in infrastructure costs.	9/26/2024 9:51 AM
46	Would love to see mixed-use with outdoor space for families to enjoy and commercial on the ground level, condos on the upper level, and adequate parking. No manufacturing since there are so many residential properties near the Moore-Clark property.	9/26/2024 9:13 AM
47	Large trees and a usable water feature for kids	9/25/2024 9:16 PM
48	Please do whatever is necessary to get the Moore Clark Project moving on "full speed ahead"	9/25/2024 6:08 PM
49	Can the city do something to upgrade the parking lot north of Moore Clark? Also, what is that white brick building (old cold storage building?) used for	9/25/2024 5:46 PM
50	Affordable housing	9/25/2024 11:37 AM
51	No.	9/24/2024 2:17 PM
52	It would be great to see a mix of affordable homes and public interaction options. Crafts, art, music, cooking, and dance classes would be a great addition to the area, and I think the local economy would benefit greatly.	9/24/2024 8:53 AM
53	Needs to match the look of La Conner - preserving the history of the manufacturing in the community.	9/23/2024 2:47 PM
54	Do exercises that help people imagine multiple possibilities. For one wild example, what if the city parking lot became affordable house (up from the flood plain) and then some part of the Moore Clark area develops environmentally friendly, more distributed parking with walking paths up into town? Also, it would be helpful to know up front the environmental contexts and issues (waterside regulations, potential soil contamination issues) before deciding how much to devote to building something. Maybe something small and modest could provide larger value to a more diverse set of people, versus something that is "wow" but super expensive to develop and then targets those with the needed income.	9/23/2024 9:16 AM
55	No	9/21/2024 3:32 PM
56	It would be nice to have boat and bike rentals. Businesses downstairs and housing upstairs works out nice.	9/21/2024 12:04 PM
57	I'm thrilled the process has begun.	9/18/2024 6:31 PM
58	I would love to see a secure dog park and a little league baseball park in the area.	9/14/2024 11:15 AM
59	Make it Environmentally Safe	9/13/2024 1:57 PM
60	It's been a long time coming.	9/13/2024 9:28 AM
61	Incorporate some short term moorage into the design. We do a poor job of actually connecting with transient boaters. A big market drifts by downtown every day during the boating season.	9/13/2024 6:27 AM
62	I guess the owner's of Moore Clark are willing to value the voice of LaConner and Skagit valleys opinion regarding the future of their property. I would like to see a pedestrian friendly area with a working vibe, Vehicle delivery, emergency access only. Waterfront pedestrian extension to the bridge, and Surrounding existing parks up top and below on the waterfront. (Old cannery) I would love to see the historic blue building preserved in its magnitude as a key focal point. With a mix of retail on its exterior and indoor seating amongst historic farm implements, fish boats, tribal canoes, photos, sternwheelers. This would require huge community support. I understand _____ has lots of DT towing memorabilia. In his barn I think the Gill net boat Chinook is in a barn on the Chilberg rd. And the museum has tons of farm Iron in its Bayview storage. And silloets (sp) of historic characters I believe an integrated historic perspective of Swinomish community would be a great tribute to this county, State and country. And this Sub-planning area incorporates plenty of room to fill the plate. I'm sure lots of	9/12/2024 10:50 PM

professional planners and civic minded folks would love to lend their opinions Kudos to Moore Clark owner		
63	Sure as plans develop	9/12/2024 9:59 PM
64	Urban forest with walking paths. Protect the land from floods Put the charges in existing parking lot, don't turn the new space into another parking area with chargers Green space access for all along water front, no motorize boat access. Personally, I am good with affordable housing away from the water. Let the road stay where it is. Build a burn sea wall, plant it. Make urban forest and a retention water feature, walking trails please.	9/12/2024 9:05 PM
65	I prefer free parking lots in town, everywhere there are lots	9/12/2024 8:55 PM
66	find a leader who can make this happen.	9/12/2024 5:30 PM
67	more trees and flood mitigation	9/12/2024 4:45 PM
68	Lots of trees	9/12/2024 4:28 PM
69	hi rise apts. with restaurant top and bottom	9/12/2024 3:59 PM
70	Hard to think about not developing some affordable living space since the town needs housing, but don't see how that's possible with waterfront property. Also hate to think about gentrification by building expensive waterfront property, so why not keep housing out of it and use the space to create an arts district and support non-motorized water sports (kayaking/paddleboarding). A creative space for the public where classes could be offered would be nice too.	9/12/2024 3:51 PM
71	Don't seek perfection. Seek ideas that energize and create possibilities along the way. Otherwise we get STUCK!	9/12/2024 3:16 PM
72	Remember what has been lost and can never regain. Preserve what we can before it is lost. Democracy means access to all not just the few.	9/12/2024 3:02 PM
73	incorporate a mural wall	9/12/2024 2:49 PM
74	it seems that a mixed use, affordable residential/light industrial would meet the most needs	9/12/2024 2:43 PM
75	Lots of green space on the waterfront and please plant trees!	9/12/2024 2:23 PM
76	providing more walkable areas--cutting traffic to allow residents/visitors to enjoy peacefully	9/12/2024 2:14 PM
